

RURAL

21

The International Journal for Rural Development

INDEX 2022

INDEX OF SUBJECTS AND INDEX OF AUTHORS

FOCUS

The land-sea interface	1/2022
Healthy soil – healthy people – healthy planet	2/2022
Rural development in times of pandemics	3/2022
Financing sustainable agri-food systems	4/2022

SUBJECTS

	PAGE	ISSUE		PAGE	ISSUE
Agriculture & Livestock			Children are losing hope	22	3/2022
Local biopesticide production hubs and the empowerment of rural women in Tamil Nadu, India	41	1/2022	Strengthening food markets across the rural-urban continuum	25	3/2022
Soil organisms for healthy soil and sustainable agriculture	10	2/2022	Multipurpose cash-based assistance in Covid-19 humanitarian assistance – an experience from Nepal	28	3/2022
How investing in soil-related inputs and services pays off	18	2/2022	New tailwind for rural tourism	30	3/2022
Biochar – a soil enhancer for (nearly) all cases	36	2/2022	Development cooperation/ Development policies		
Machinery rings – an innovative approach to mechanising Kenyan agriculture	42	2/2022	A multi-stakeholder partnership for integrated mangrove aquaculture in the Sundarbans	28	1/2022
Adapting agriculture for a safe planet	38	3/2022	Strengthening India's resilience to climate change through water security	38	1/2022
Locally produced fertiliser instead of costly imports	41	4/2022	"Preserving and restoring fertile soils is a global responsibility" – Interview with Jochen Flasbarth, BMZ	20	2/2022
Biodiversity			Ten years of VGGT – a stocktaking	29	2/2022
Managing coastal biodiversity and sustaining livelihoods in a complex setting – the Gulf of Mottama Project in Myanmar	20	1/2022	The SDG Land Tracker – easy access to land-related indicators	31	2/2022
Climate change			Little change in land governance practice	32	2/2022
Mangrove forests – a nature-based solution for climate change mitigation and adaptation	23	1/2022	Multipurpose cash-based assistance in Covid-19 humanitarian assistance – an experience from Nepal	28	3/2022
Strengthening India's resilience to climate change through water security	38	1/2022	Evaluating collaboration between the private sector and development cooperation – how to prove the added value?	42	3/2022
Building land and drought resilience – UNCCD's work	22	2/2022	Tax or spend? What is at stake for agri-food systems transformation	11	4/2022
Adapting agriculture for a safe planet	38	3/2022	Towards a renaissance of agricultural development banks in sub-Saharan Africa?	18	4/2022
COP 27 – Delivering for people and the planet	04	4/2022	The CAADP 10 per cent target – still pursued by African leaders?	20	4/2022
Assessing the effectiveness of multilateral funds in coping with drought	24	4/2022	State subsidies for broad insurances of aquaculture stocks are socially unjust	36	4/2022
Brazil's approach to low-carbon agriculture	38	4/2022	Employment/ Entrepreneurship		
Covid-19			Chocolate made in Africa – the start of a small revolution?	36	1/2022
Multiple crises are changing the world	04	3/2022	New tailwind for rural tourism	30	3/2022
Boosting the resilience of the global financial system	07	3/2022	Energy		
"We have never been in a better position to end the pandemic" – Interview with Carla Drysdale, WHO	11	3/2022	Development for large and small alike – Senegal's national biogas programme	33	3/2022
Global food systems in the wake of Covid-19	14	3/2022			
The poorest are worst hit	17	3/2022			

SUBJECTS

	PAGE	ISSUE		PAGE	ISSUE
Finance			Forestry/ Forest conservation		
Boosting the resilience of the global financial system	07	3/2022	Mangrove forests – a nature-based solution for climate change mitigation and adaptation	23	1/2022
Just rewards, or just rewarding business-as-usual? The urgent need to realign the financial incentives in our food systems	06	4/2022	The Great Green Wall – Africa’s green world wonder?	26	2/2022
Sustainable food systems need True Cost Accounting	09	4/2022	Greening a cold desert in the Himalayas – boon or bane?	42	4/2022
Tax or spend? What is at stake for agri-food systems transformation	11	4/2022	Gender		
Supply chain finance – a viable option for smallholder farmers?	15	4/2022	Local biopesticide production hubs and the empowerment of rural women in Tamil Nadu, India	41	1/2022
Towards a renaissance of agricultural development banks in sub-Saharan Africa?	18	4/2022	Putting gender upfront in vaccine delivery systems	40	2/2022
The CAADP 10 per cent target – still pursued by African leaders?	20	4/2022	Health/ One Health		
“Human capital will play a pivotal role in the transformation of African economies” – Interview with Ben Leyka, African Agri Council NPC	22	4/2022	Putting gender upfront in vaccine delivery systems	40	2/2022
Assessing the effectiveness of multilateral funds in coping with drought	24	4/2022	“We have never been in a better position to end the pandemic” – Interview with Carla Drysdale, Media Officer and Spokesperson for WHO	11	3/2022
“The bankers are interested in the low-hanging fruits” – Interview with Prasun Kumar Das, APRACA	27	4/2022	Land management		
Food system transformation needs private sector support	30	4/2022	Land reclamation for housing – the example of Côte d’Ivoire	10	1/2022
“Private actors are much closer to reality” – Interview with Rohan Grover, NatureBiofoods	33	4/2022	“Preserving and restoring fertile soils is a global responsibility” – Interview with Jochen Flasbarth, BMZ	20	2/2022
Fisheries & Aquaculture			Building land and drought resilience – UNCCD’s work	22	2/2022
Conserving mangrove ecosystems, securing livelihoods – the seafood sector can play its part	26	1/2022	WOCAT – spreading sustainable land management world-wide	24	2/2022
A multi-stakeholder partnership for integrated mangrove aquaculture in the Sundarbans	28	1/2022	Highlighting the true value of land	25	2/2022
“Diversity is the fundamental principle to use” – Interview with Shakuntala Haraksingh Thilsted, WorldFish	33	1/2022	The Great Green Wall – Africa’s green world wonder?	26	2/2022
Towards more sustainability in integrated mangrove systems	38	2/2022	“More cohesion across existing frameworks is desperately needed” – Interview with Salima Mahamoudou, WRI	27	2/2022
State subsidies for broad insurances of aquaculture stocks are socially unjust	36	4/2022	Ten years of VGGT – a stocktaking	29	2/2022
Food systems/ Food security & nutrition			The SDG Land Tracker – easy access to land-related indicators	31	2/2022
“Diversity is the fundamental principle to use” – Interview with Shakuntala Haraksingh Thilsted, WorldFish	33	1/2022	Little change in land governance practice	32	2/2022
Food security is more than production volumes and high yields	34	2/2022	Land-sea interactions		
Towards more sustainability in integrated mangrove systems	38	2/2022	Governing land-sea interactions – an urgent necessity in the Anthropocene	04	1/2022
Global food systems in the wake of Covid-19	14	3/2022	Sucking away the sand	08	1/2022
Strengthening food markets across the rural-urban continuum	25	3/2022	Land reclamation for housing – the example of Côte d’Ivoire	10	1/2022
Just rewards, or just rewarding business-as-usual? The urgent need to realign the financial incentives in our food systems	06	4/2022	Down the river and into the sea – plastic pollution and its consequences	13	1/2022
Sustainable food systems need True Cost Accounting	09	4/2022	Fighting for coastlines devoured by climate change in Tunisia	16	1/2022
Tax or spend? What is at stake for agri-food systems transformation	11	4/2022	Sustainable funding for the Mediterranean’s marine protected areas	19	1/2022
Food system transformation needs private sector support	30	4/2022	Managing coastal biodiversity and sustaining livelihoods in a complex setting – the Gulf of Mottama Project in Myanmar	20	1/2022
“We have a shared goal to improve the sustainability impact of the agri-food sector” – Interview with Shivani Kannabhiran, OECD Centre for Responsible Business Conduct	34	4/2022	Mangrove forests – a nature-based solution for climate change mitigation and adaptation	23	1/2022
			Conserving mangrove ecosystems, securing livelihoods – the seafood sector can play its part	26	1/2022
			Evidence-based regulation for sustainable development – coastal protection in Ghana	30	1/2022
			Towards more sustainability in integrated mangrove systems	38	2/2022

SUBJECTS

	PAGE	ISSUE		PAGE	ISSUE
Private Sector / Public-private partnerships			Soil		
Conserving mangrove ecosystems, securing livelihoods – the seafood sector can play its part	26	1/2022	Returning land to nature	04	2/2022
Evaluating collaboration between the private sector and development cooperation – how to prove the added value?	42	3/2022	Soil organisms for healthy soil and sustainable agriculture	10	2/2022
Supply chain finance – a viable option for smallholder farmers?	15	4/2022	“The private sector is keen to invest in soil” – Interview with Leigh Ann Winowiecki, CIFOR-ICRAF	12	2/2022
“Human capital will play a pivotal role in the transformation of African economies” – Interview with Ben Leyka, African Agri Council NPC	22	4/2022	“We are helping family farms to adapt to climate change” – Interview with Fernando Henrique Kohlmann Schwanke, IICA	14	2/2022
Food system transformation needs private sector support	30	4/2022	“Sustainable soil management can be adopted by any and all Brazilian producers” – Interview with Celso Moretti, Embrapa	16	2/2022
“Private actors are much closer to reality” – Interview with Rohan Grover, NatureBiofoods	33	4/2022	How investing in soil-related inputs and services pays off	18	2/2022
“We have a shared goal to improve the sustainability impact of the agri-food sector” – Interview with Shivani Kannabhiran, OECD Centre for Responsible Business Conduct	34	4/2022	“Preserving and restoring fertile soils is a global responsibility” – Interview with Jochen Flasbarth, BMZ	20	2/2022
Research & Innovation			WOCAT – spreading sustainable land management world-wide	24	2/2022
Soil organisms for healthy soil and sustainable agriculture	10	2/2022	Highlighting the true value of land – the Economics of Land Degradation Initiative	25	2/2022
Biochar – a soil enhancer for (nearly) all cases	36	2/2022	“More cohesion across existing frameworks is desperately needed” – Interview with Salima Mahamoudou, WRI	27	2/2022
Adapting agriculture for a safe planet	38	3/2022	Biochar – a soil enhancer for (nearly) all cases	36	2/2022
Brazil’s approach to low-carbon agriculture	38	4/2022			
Rural-urban linkages					
Strengthening food markets across the rural-urban continuum	25	3/2022			
Rural development					
The Great Green Wall – Africa’s green world wonder?	26	2/2022			
Food security is more than production volumes and high yields	34	2/2022			
Putting gender upfront in vaccine delivery systems	40	2/2022			
Machinery rings – an innovative approach to mechanising Kenyan agriculture	42	2/2022			
New tailwind for rural tourism	30	3/2022			
Development for large and small alike – Senegals’ national biogas programme	33	2/2022			
“We simply can’t rely on young people being only producers of food”	36	3/2022			
“The bankers are interested in the low-hanging fruits” – Interview with Prasun Kumar Das, APRACA	27	4/2022			
Locally produced fertiliser instead of costly imports	41	4/2022			
Greening a cold desert in the Himalayas – boon or bane?	42	4/2022			
Youth					
Children are losing hope	22	3/2022			
“We simply can’t rely on young people being only producers of food”	36	3/2022			
Water					
Strengthening India’s resilience to climate change through water security	38	1/2022
